3. Aggregate football earnings are the sum of the licensee's football earnings for each of the three consecutive reporting periods up to and including the reporting period ending in the calendar year in which the UEFA club competitions commence (i.e. reporting periods T, T-1 and T-2), plus an upwards adjustment for relevant investments in accordance with Article 89, if applicable.
4. If a licensee's aggregate football earnings are positive (zero or above), then the licensee has an aggregate football earnings surplus. If a licensee's aggregate football earnings are negative (below zero), then the licensee has an aggregate football earnings deficit.

Article 87 Acceptable deviation

Article 90 - Football earnings rule

1. A licensee is in compliance with the football earnings rule if for the monitoring period it has:

The process

1. The Licensor must finalise the wording of the national club licensing regulations and send them, in the English language, to the UEFA administration for review by the deadline communicated by the latter.
2. The Licensor is responsible for ensuring, and must demonstrate to the UEFA administration, that all applicable provisions of these regulations have been integrated in its national club licensing regulations. Exceptions may be granted according to Article 13 of these regulations.
3. The Licensor is free to increase or introduce additional Minimum Criteria in its national club licensing regulations for the purpose of entering the UEFA club competitions.
4. Where introduced by the Licensor in its national club licensing regulations, any increased or additional Minimum Criteria apply mutatis mutandis to entry in the UEFA club competitions.
5. The Licensor must confirm to the UEFA administration that all provisions contained in the national club licensing regulations are in compliance with the applicable national law.
6. The national club licensing regulations must be approved by the Football Association of Wales National Leagues Board and communicated to the Licence Applicants before the start of the licensing process and they cannot be amended during the latter process, unless duly approved by UEFA.
7. The UEFA administration reviews the final version of the national club licensing regulations and confirms in writing to the Licensor that:
 - a) the applicable provisions of these regulations for the purpose of entering the UEFA club competitions are integrated in the national club licensing regulations;

b) the Licence issued by the competent national bodies according to the national club licensing regulations is based on the Minimum Criteria set out in part II of these regulations.

8. The Licensor is encouraged to apply a club licensing system and monitoring requirements to govern participation in its domestic competitions. For this purpose, the Licensor is free to increase, decrease, or introduce additional Minimum Criteria in its national club licensing regulations for the purpose of granting permission to enter its domestic competitions.

ANNEX D: Extraordinary application of the club licensing system for participation in the UEFA club competitions

1. The UEFA administration defines the necessary deadlines and the Minimum Criteria for the extraordinary application of the club licensing system for participation in the UEFA club competitions as specified in Article 17(1) and communicates them to the Licensors at the latest by 31 August of the year preceding the licence season.

2. The Licensors must notify the UEFA administration of such extraordinary application requests in writing and stating the name of the club concerned by the deadline communicated by the UEFA Administration.

3. The Licensors are responsible for submitting the criteria to the club concerned for the assessment for the extraordinary procedure at National level. They must also take immediate action with the club concerned to prepare for the extraordinary procedure.

4. The club(s) concerned must provide the necessary documentary proof to the Licensor that will assess the club(s) against the fixed minimum standards and forward the following documentation in English to the UEFA administration by the deadline communicated by the latter:

- a) a written request to apply for special permission to enter the corresponding UEFA club competition;

UEFA bases its decision on the documentation received and grants special permission to enter the UEFA club competitions if all the set criteria are fulfilled and if the club(s) ultimately qualifies on sporting merit. The decision will be communicated to the Licensor, which has to forward it to the club(s) concerned.

6. If such a club is eliminated on sporting merit during this extraordinary procedure, the Licensor has to notify the UEFA administration immediately, and this procedure is immediately terminated, without further decision. Such a terminated procedure cannot be restarted at a later stage.

7. Appeals can be lodged against decisions made by the UEFA administration in writing before the Court of Arbitration for Sport in accordance with the relevant provisions laid down in the UEFA Statutes

- xxiii. Net result (sum of items viii, xiv, xviii and xix to xxii)

Management may consider that line items (i) to (xxiii) are best presented on the face of the profit and loss account or in the notes.

Cash flow statement

1. The cash flow statement must report cash flows for the financial period, classified separately as stated below.

Cash flow from operating activities

Operating activities are the principal revenue-producing activities of the entity and other activities that are not investing or financing activities. Therefore, they generally result from the transactions and other events that enter into the determination of net result. The minimum disclosure requirements are stated below:

Net cash inflow/outflow from operating activities

Cash flows from investing activities

Investing activities are the acquisition and disposal of long-term assets (including player registrations) and other investments not included in cash equivalents. The entity must report separately major classes of gross cash receipts and gross cash payments arising from investing activities. The minimum disclosure requirements are stated below:

Cash inflow/outflows from acquisition/disposal of player registrations

Cash inflow/outflows from acquisition/disposal of tangible assets

Other cash inflow/outflows from investing activities

Cash flows from financing activities

Financing activities are activities that result in changes in the size and composition of the contributed equity share capital and borrowings of the entity. The entity must report separately major classes of gross cash receipts and gross cash payments arising from financing activities. The minimum disclosure requirements are stated below.

Cash inflow/outflows from borrowings – shareholders and related party

Cash inflow/outflows from borrowings – financial institutions

Cash inflow from increase of capital/equity

Cash outflows from dividends paid to owners/shareholders

Other cash inflow/outflows from financing activities

Other cash flows

Cash flows from interest and dividends received and paid must each be disclosed separately. Each must be disclosed in a consistent manner from period to period as either operating, investing or financing activities.

Cash flows arising from taxes on income must be disclosed separately and classified as cash flows from operating activities unless they can be appropriately and specifically identified as financing and investing activities.

2. The components of cash and cash equivalents must be disclosed and a reconciliation of the amounts in the cash flow statement presented, with the equivalent items reported in the balance sheet.

Notes to the financial statements

1. Notes to the annual financial statements must be presented in a systematic manner. Each item on the face of the balance sheet, profit and loss account and cash flow statement must be cross-referenced to any related information in the notes. The minimum requirements for disclosure in notes are as follows:

g) Provisions

Provisions must be disclosed in separate classes. In determining which provisions may be aggregated to form a class, it is necessary to consider whether the nature of the items is sufficiently similar to be combined in a statement of a single amount. For each class of provision, the carrying amount at the beginning and end of the period, the amount utilised and any amount released, or credited, in the period must be disclosed.

h) Issued capital and reserves

Share capital, revaluation reserves and other reserves and retained earnings must be disclosed separately.

i) Share/fund capital in relation to share capital issued during the reporting period, the following must be disclosed:

This information must be disclosed irrespective of whether any transactions have taken place between the controlling parties and the reporting entity.

If there has been one or more related party transactions during the reporting period, the reporting entity must disclose the nature of the related party relationship, as well as information about the transaction(s) and outstanding balances, including commitments, necessary for an understanding of the potential effect of the relationship on the financial statements. Items of a similar nature may be disclosed in aggregate except when separate disclosure is necessary to understand the effects of related-party transactions on the financial statements of the reporting entity. As a minimum, disclosures must include for each related party:

- i) the amount and the nature of the transactions;
- ii) the amount of outstanding balances, including commitments, and:
their terms and conditions, including whether they are secured, and the nature of the consideration to be provided in settlement; and
details of any guarantees given or received;

iii) provisions for doubtful debts related to the amount of outstanding balances; and

an estimate of its financial effect;
an indication of the uncertainties relating to the amount or timing of any outflow; and
the possibility of any reimbursement.

l) Events after the balance sheet date

Material non-adjusting events after the balance sheet date must be disclosed (the nature of the event and an estimate of its financial effect, or a statement that such an estimate cannot be made). Examples of such events are:

fixed-term borrowing approaching maturity without realistic prospects of renewal or repayment;
substantial operating losses;
discovery of material fraud or errors that show the financial statements are incorrect;
management determining that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so;
player transactions where the amounts paid or received are material;
transactions relating to property – for example, in relation to the club's Stadium.

m) Other disclosures

Agents/Intermediaries' fees

The total amount paid in the reporting period to or for the benefit of Agents/Intermediaries must be disclosed.

Tax expense

The components of tax expense must be disclosed separately. That is, the aggregate amount included in the determination of net profit or loss for the reporting period in respect of current and/or deferred tax.

2. Notes to the interim financial statements consist as a minimum, of:

- a.) statement that the same accounting policies and methods of computation are followed in the interim financial statements as in the most recent annual financial statements or, if those policies or methods have been changed, a description of the nature and effect of the change; and
- b. notes equivalent to those in the annual financial statements as defined in paragraph F.5.1; and
- c. disclosure of any events or transactions that are material to an understanding of the interim period.

Player identification table

1. All Licence Applicants must prepare and submit to the Licensor a player identification table.

2. The player identification table must be provided to the auditor, who must reconcile the aggregate figures in the player identification table to the relevant figures in the balance sheet and profit and loss account in the audited annual financial statements and interim financial statements. However, the player identification table does not need to be disclosed within the annual financial statements or interim financial statements.

3. The minimum information to be included in the player identification table in respect of each relevant player is as follows:

- a) Name and date of birth;
- b) Start date of original player contract and end date of current contract;
- c) Costs Of Acquiring The Player's Registration,.

- d) Accumulated amortisation brought forward and as at the end of the period;
- e. Amortisation of the player's registration in the period;
- f. Impairment of the player's registration in the period;
- g. Disposal of the player's registration (cost and accumulated amortisation);

- j) Sell-on rights (or similar), i.e description and (if possible) quantification of any sell-on rights to a football club that formerly held the players' registration excluding training compensation and/or solidarity contributions.

4. Relevant players, about whom details are required in the table, are:

- a) all players whose registration is held by the Licence Applicant at any time during the period and in respect of whom some direct acquisition cost has been incurred (at some point in time in the reporting period or prior periods); and
- b) all players in respect of whom some income/profit (or loss) has been recognised (at some point in time in the reporting period).

5. For Licence Applicants who have restated player accounting figures to meet the accounting requirements of these regulations, these aggregate figures from the player identification table must agree with/be reconciled to the restated figures in the supplementary information.

Financial review by management

The annual financial statements must include a financial review or commentary by management (sometimes referred to as a directors' report) that describes and explains the main features of the reporting entity's financial performance and financial position and the principal risks and uncertainties it faces.

The annual financial statements must also include the names of persons who were members of the executive body, or board of directors, and of the supervisory bodies of the reporting entity at any time during the year.

ANNEX G: Accounting requirements for the preparation of financial statements

G.1 Principles

1. Financial statements as defined in Articles 66 and 68 must be based on the accounting standards required by UK legislation for incorporated companies – either the applicable financial reporting framework of the UK, the International Financial Reporting Standards for the International Financial Reporting Standard for Small and Medium-sized Entities– regardless of the legal structure of the Licence Applicant.

2. Financial statements must be prepared on the assumption that the Licence Applicant is a going concern meaning it will continue in operation for the foreseeable future. It is assumed that the Licence Applicant has neither the intention nor the necessity to go into liquidation, cease trading or seek protection from creditors pursuant to laws or regulations.

3. The financial reporting framework suitable as a basis for the preparation of financial statements, must contain certain underlying principles including:

- a) fair presentation;
- b) consistency of presentation;
- c) accrual basis for accounting;
- d) separate presentation of each material class of items;
- e) no offsetting of assets and liabilities or income and expenses.

4. Notwithstanding that each Licence Applicant has to prepare audited annual financial statements and interim financial statements under its own National Accounting Practice for incorporated companies, the International Financial Reporting Standards or the International Financial Reporting Standard for Small and Medium-sized Entities, these regulations include specific accounting requirements to be complied with as set out in Annexes G.2 and 6.

5. If the annual financial statements and/or interim financial statements are not in compliance with the accounting requirements set out in Annex G, then the licence applicant must also submit to the licensor:

- a. restated financial statements to meet the accounting requirements set out in Annex G, covering the same period and including comparative amounts for the previous comparative period;
- b. a declaration by the licence applicant's management that the restated financial statements are complete, accurate and in compliance with the regulations; and
- c. an assessment report provided by the same auditor that signs the annual financial statements and/or interim financial statements by way of agreed-upon procedures prescribed by the licensor in respect of the completeness and accuracy of the restated financial statements.

6. Restated financial statements must include:

- a restated balance sheet as at the end of the period;
- b. a restated profit and loss account/income statement for the period;
- c. a restated statement of changes in equity for the period; and
- d. notes, comprising a summary of significant accounting policies, other explanatory notes, and a note (or notes) reconciling the balance sheet and profit and loss account/income statement between the restated financial statements and the relevant annual financial statements or interim financial statements.

2. Consolidation/combination requirements

- 1. The financial information of all entities (as defined in Article 65) must be either combined or consolidated as if they were a single company.
- 2. Consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cashflows of the parent and its subsidiaries as those of a single company.
- 3. Combined financial statements are those that include information about two or more commonly controlled entities without information about the controlling entity.

3. Accounting requirements for the permanent transfer of a player's registration

1 The acquisition of a player's registration must be recognised in the financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional, which means that there must be a legally binding agreement between the two clubs and between the acquiring club and the player.

2 The disposal of a player's registration must be recognised in the licence applicant's financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional and the risks and rewards have been transferred to the new club.

3 Licence applicants that capitalise the costs of a player's registration as an intangible asset must apply certain minimum accounting requirements as described in paragraphs 4, 5 and 6 of this part G.3. A licence applicant can expense the costs of a player's registration rather than capitalise them as an intangible asset if this is permitted under national accounting practice.

4 The minimum accounting requirements for Licence Applicants that capitalise the costs of acquiring a player's registration as an intangible asset, are as follows:

- a. Only the directly attributable costs of a player's registration can be capitalised as an intangible asset. For accounting purposes, the carrying value of an individual

player must not be revalued upwards, even though a licence applicant's management may believe market value is higher than carrying value. In addition, whilst it is acknowledged that a licence applicant may be able to generate some value from the use and/or transfer of locally trained players, for accounting purposes costs relating to a licence applicant's own youth sector must not be included in the balance sheet – as only the costs of a player's registration are to be capitalised. All forms of consideration to and/or benefit of players (such as sign-on fees) must be treated as employee benefit expenses and not costs of a player's registration. Finance costs arising in respect of borrowings are treated as finance costs and are not costs of a player's registration even if the borrowings were obtained to help finance the acquisition of player registrations.

b. Amortisation costs of player registrations must begin when the player's registration is acquired. Amortisation ceases when the asset is fully amortised or derecognised (i.e. the registration is considered as being permanently transferred to another club), whichever comes first.

c. For each individual player's registration, the depreciable amount must be allocated on a systematic basis over the duration of the player's original contract, up to a maximum of 5 years. This is achieved by the systematic allocation of the cost of the asset as an expense from the date the player's registration is acquired and over the period of the player's contract, up to a maximum of 5 years. If the period of a player's contract with the club is extended, then the intangible asset carrying value of the player's registration plus any additional directly attributable contract negotiation costs (e.g. agent/intermediary fees) can either be amortised over the remaining period of the original contract or be amortised over the extended period of the player's contract, up to a maximum of 5 years from the date of contract extension.

d. All capitalised player values must be reviewed for impairment each year by the licence applicant's management. If the recoverable amount for an individual player is lower than the carrying amount on the balance sheet, the carrying amount must be adjusted to the recoverable amount and the adjustment charged to the profit and loss account as an impairment cost. It is recommended that each Licensor requires each of its Licence Applicants to apply consistent accounting policies in respect of player registration costs.

The net book value of a player's registration should be reviewed for impairment in the reporting period in the following circumstances:

i. When it becomes clear by the annual accounting referred date that a player will not be able to play again with the club, for example if he suffers a career-threatening injury or he is permanently unable to play professional football. In this case, the net book value of the player's registration on the balance sheet must be fully impaired in that reporting period. The following events do not represent a cause for recognising impairment loss:

- A player suffers an injury in a reporting period and is temporarily unable to play professional football with the club, or;
- A player suffers a decline in fitness or ability and is not selected for participation in first-team matches.

In this regard, future wages of players suffering from a career-threatening injury or he is permanently unable to play professional football must continue to be recognised as employee benefits expenses throughout the duration of the player's contract.

ii. If the management of the club is committed to permanently transfer a player's registration and the transfer occurs just after the annual accounting reference. In this case, the net book value of the player's registration on the balance sheet should be reviewed for impairment if the disposal proceeds for the permanent transfer of the player's registration to the new club is lower than his net book value. The accounting principle must be disclosed in the financial statements and must be applied consistently from one accounting period to another.

iii. If the management of the club has temporarily transferred a player's registration for an amount lower than the amortization cost.

5 If two or more players are transferred in opposite directions between clubs, the licence applicant must assess whether these transfers are to be considered as player exchange transactions under the terms of these regulations. If so, the international accounting requirements for exchange of assets (i.e., currently International Accounting Standard 38, paragraphs 45-47) are to be applied when calculating profit from the disposal of outgoing player(s) and the registration costs for the incoming player(s).

In principle when calculating the profit from the disposal of the outgoing player's registration, the proceeds cannot exceed the net book value of the cost of the player's registration in the licence applicant's financial statements, adjusted to take account of any net cash paid in the context of the exchange transaction and the registration costs for the incoming player must be capitalised at the maximum at the carrying amount of the outgoing player, adjusted to take account of any net cash paid by the club in the context of the exchange transaction.

A player exchange transaction is when two or more players are transferred in opposite directions between clubs, and which typically includes one or more of the following conditions in respect of the players transferred in and out (not exhaustive list).

Transfers, incoming and outgoing:

- are included in the same transfer contract;
- are included in different transfer contracts that are linked to each other;
- are concluded in the same registration period;

- do not involve any or only limited monetary disbursements;
- do involve the same or similar payment obligations or payment deadlines for both the players transferred in and the players transferred out that are likely to offset each other

6 The profit/(loss) on the disposal of a player's registration to another club to be recognised in the profit and loss account is the difference between the disposal proceeds (net of any sales costs) and the residual carrying value of the player's registration in the balance sheet as at the date of the transfer.

Profit/loss on disposal of a player's registration must be calculated net of any amounts paid and/or payable that are directly attributable to the disposal of the player's registration, comprising:

- a. realised conditional transfer compensation for amounts which have become payable on the disposal of the player's registration (e.g. sell-on fee payable to another club);
- b. any other directly attributable amounts paid and/or payable to another party such as another football club, agent/intermediary, or national football association/league.

The licence applicant must apply the following adjustments in respect of the permanent transfer of a player's registration between clubs that are related parties:

- a. The club that has transferred in the player's registration must calculate the cost of acquiring the player's registration – for the calculation of an amortisation charge for the reporting period (for clubs using the capitalisation and amortisation method of accounting for player registrations) or for the costs of the player's registration (for clubs using the income and expense method of accounting for player registrations) – using the greater of the following amounts: i. The actual transaction cost of acquiring the player's registration; ii. The historical costs of the player's registration in the financial statements of the club that has transferred out the player. If the calculated amortisation charge is greater than the recorded amortisation charge or the calculated costs of the player's registration are greater than the recorded costs of the player's registration, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.
- b. The club that has transferred out the player's registration must calculate the disposal proceeds of the player's registration – for the calculation of the profit on disposal of the player's registration (for clubs using the capitalisation and amortisation method of accounting for player registrations) or for the income from the player's registration (for clubs using the income and expense method of accounting for player registrations) – using the lower of the following amounts: i. The actual transaction proceeds on disposal; ii. The net book value in respect of the costs of the player's registration in its financial statements. If the calculated profit on disposal is

lower than the recorded profit on disposal or the calculated income from the player's registration is lower than the recorded income from the player's registration, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

The above accounting requirements apply by analogy to any other personnel, e.g. head coach, and release income/costs or similar paid to another club.

4. Accounting requirements for the temporary transfer of a player's Registration

1. The minimum accounting requirements for Licence Applicants that have transactions in respect of the temporary transfer of a player's registration (loan) are as follows:

2. Loan fees received/paid must be reported as player transfer income/expense.

3. Loan of a player from the lender club to the new club with no obligation/option to Buy

The loan fees received/receivable by the lender club, if any, must be recognised as income over the period of the loan arrangement. The lender club will continue to recognise the original Costs Of Acquiring The Player's Registration as an intangible asset on its balance sheet and to allocate systematically the cost of the asset as an amortisation expense over the period

The loan fees paid/payable by the new club, if any, must be recognised as an expense over the period of the loan arrangement. If the player's salary is taken over by the new club, it must be recognised as an employee benefits expense over the player's loan term.

4. Loan of a player from the lender club to the new club with an unconditional obligation to buy

The loan must be reflected by the lender club as a permanent transfer and the player's registration rights must be derecognised from its intangible assets. The proceeds from the loan and from the future permanent transfer must be recognised from the inception of the loan agreement.

The direct costs of the loan and the future permanent transfer for the new club must be recognised by the new club in accordance with the accounting requirements for permanent acquisition of a player's registration.

5. Loan of a player from the lender club to the new club with an option to buy

The transaction must be recorded as a loan by the lender club until the option is exercised by the new club. When the option is exercised, any remaining proceeds of the loan and proceeds of the future permanent transfer must be recognised in accordance with the accounting requirements for the permanent disposal of player's registration.

When the option is exercised by the new club, any remaining costs of the loan and the costs of the future permanent transfer must be recognised by the new club in accordance with the accounting requirements for the permanent acquisition of a player's registration.

6. Loan of a player from the lender club to the new club with a conditional obligation to buy

If a condition is considered to be virtually certain, then the player's registration must be recognised by both clubs as a permanent transfer from the inception of the loan agreement.

If the fulfilment of a condition cannot be assessed with sufficient certainty to trigger the permanent transfer from the inception of the loan, then the player's registration must be recognised first as a loan and then as a permanent transfer once the condition is met.

7. The licence applicant must apply the following adjustments in respect of the temporary transfer of a player's registration between clubs that are related parties:

a. The club that has temporarily transferred in the player's registration must calculate an expense amount in respect of the player for the reporting period using the greater of the following amounts: i. The actual transaction cost in the reporting period; ii. The aggregate amount of the amortisation charge in respect of the player's registration and the employee benefit expenses in respect of the player for the period of the loan as recorded in the financial statements of the club that has temporarily transferred out the player. If the calculated expense is greater than the recorded expense, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

b. The club that has temporarily transferred out the player's registration must calculate an income amount in respect of the player for the reporting period using the lower of the following amounts: i. The actual transaction income in the reporting period; ii. The aggregate amount of the amortisation charge in respect of the player's registration and the employee benefit expenses in respect of the player for the period of the loan as recorded in the financial statements of the club that has temporarily transferred out the player.

If the calculated income amount is lower than the recorded income, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

5. Accounting requirements for specific expense items

1. Incentive/bonus expenses for employees

All forms of consideration given by an entity in exchange for service rendered by an employee, including any bonuses and incentives such as performance related consideration, contract signing fees, and loyalty incentives, must be reported as employee benefits expenses.

Bonus and/or incentive payments that are payable in full by the club to a person with no further condition or service obligation (i.e. the club has no choice but to make the payments) must be recognised as employee benefits expenses when triggered.

Bonus and/or incentive payments that are dependent on a certain future condition being satisfied by the player and/or the club, such as a player's participation in matches and/or the club's competition performance, must be recognised as employee benefits expenses at the point in time when the condition has been satisfied or its fulfilment becomes highly probable.

Incentive and/or bonus to players when entering and/or extending an employment agreement with any condition or service obligation must be recognised on a systematic basis over the relevant period.

2. Termination benefits to employees

A club must recognise in full the expense of termination benefits to an employee when the club can no longer withdraw the offer of those benefits.

6. Accounting requirements for specific revenue items

Season tickets and similar revenues

Revenue in respect of season ticket sales or similar match-related sales must be recognised on a proportionate basis at the point in time when the relevant matches take place during the period.

2. Broadcasting rights and/or prize money revenues

Revenue in respect of broadcasting rights and/or other consideration for participation in a competition which are fixed considerations must be recognised on a proportionate basis at the point in time when the relevant matches take place during this period.

Revenue in respect of broadcasting rights and/or consideration for participation in a competition which are variable considerations dependent on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

3. Sponsorship and commercial revenues

Revenue in respect of sponsorship rights and advertising which are fixed considerations must be recognised on a proportionate basis over the period covered by the sponsorship rights and / or advertising arrangements.

Revenue in respect of sponsorship rights and advertising which are variable considerations dependent on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

Any non-cash consideration as part of a sponsorship contract and / or advertising must be measured at fair value.

4. Donations and grants / subsidies

A donation is an unconditional gift of consideration that must be recognised as other operating income when received.

Grants / subsidies must not be recognised in the accounts of the club until there is reasonable assurance that the club will comply with the conditions to receive the grant and the grant will be received. Then, a grant / subsidy must be recognised in profit and loss on a systematic basis over the reporting periods in which the club recognises as expenses the related costs for which the grants / subsidies were intended to compensate. Therefore, grants / subsidies in respect of specific expenses are recognised in profit and loss in the same reporting period(s) as the relevant expenses. Similarly, grants / subsidies related to depreciable assets are recognised in profit and loss over the reporting periods and in the proportions in which depreciation expenses on those assets is recognised. A grant / subsidy that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support with no future related costs must be recognised in profit or loss in the period in which it becomes receivable.

ANNEX H: Notion of ‘overdue payables’

Payables are considered as overdue if they are not paid according to the contractual or legal terms.

Payables are not considered as overdue, within the meaning of these regulations, if the licence applicant/licensee (i.e. debtor) is able to prove by the applicable deadline, i.e. 31 March in respect of Articles 70 to 73 and 15 July, 15 October and 15 January respectively in respect of Articles 80 to 83, that:

- a. the relevant amount has been settled, i.e. either paid in full or offset against the creditor's obligations towards the debtor; or
- b. the deadline for payment of the relevant amount has been deferred (referred to as “amounts deferred” in these regulations), i.e. an agreement has been concluded in writing with the creditor to extend the deadline for payment (a creditor not requesting payment of an amount does not constitute an extension of the deadline); or
- c. the relevant amount is subject to a legal claim or open proceedings (referred to as “amounts disputed” in these regulations), meaning: i. the debtor has brought a legal claim which has been deemed admissible by the competent authority under national law or has opened proceedings with the national or international football authorities or relevant arbitration tribunal contesting liability in relation to the overdue payable, knowing that if the decision-making bodies (licensor or CFCB) consider that such claim has been brought or such proceedings have been opened for the sole purpose of avoiding the applicable deadlines set out in these regulations (i.e. in order to buy time), the amount will still be considered as an overdue payable; or ii. the debtor has contested to the competent authority under national law, the national or international football authorities or the relevant arbitration tribunal, a claim which has been brought or proceedings which have been opened against it by a creditor in respect of overdue payables and is able to demonstrate to the comfortable satisfaction of the relevant decision-making bodies (licensor or CFCB) that it has established reasons for contesting the claim or proceedings which have been opened, knowing that if the decision-making bodies (licensor or CFCB) consider the reasons for contesting the claim or proceedings as manifestly unfounded the amount will still be considered as an overdue payable; or
- d. the settlement of the relevant amount is pending (referred to as “amounts pending” in these regulations), meaning: the debtor has requested a competent authority, in writing and in accordance with the applicable law, to extend the deadline for payment of payables to social/tax authorities (as defined by Articles 72 and 82), and the competent authority has confirmed in writing that this request has been deemed admissible and still pending by 31 March (in respect of Article 72) or by 15 July, 15 October and 15 January respectively (in respect of Article 82); or i. the debtor is able to demonstrate to the comfortable satisfaction of the relevant decision-making bodies

(licensor or CFCB) that it has taken all reasonable measures to identify and pay the creditor(s) in respect of training compensation and solidarity contributions (as defined in the FIFA Regulations on the Status and Transfer of Players).

ANNEX I: Licensor's assessment procedures

Principle

The Licensor defines the assessment procedures, ensuring equal treatment of all clubs applying for a Licence. It assesses the documentation submitted by the clubs, considers whether this is appropriate and determines to its reasonable satisfaction whether each criterion has been met and what further information, if any, is needed for each licence to be granted.

The assessment processes to check compliance with the defined provisions set out in Article 11 and Article 76 comprise specific assessment steps that must be followed by the licensor as set out below.

Assessment of the auditor's report on the financial statements

1. In respect of the annual financial statements and interim financial statements the Licensor must perform the following minimum assessment procedures

- a) Assess whether the reporting perimeter is appropriate for club licensing purposes.
- b) Assess the information (annual financial statements that may also include supplementary information) submitted to form a basis for its licensing decision.
- c) Read and consider the annual financial statements and interim financial statements and the auditor's report thereon.
- d) Address the consequences of any modifications to the auditor's report (compared to the normal form of unqualified report) and/or deficiencies compared to the minimum disclosure and accounting requirements according to paragraph 2 below.

2. Having assessed the reporting perimeter and the auditor's report on the annual financial statements and interim financial statements, the licensor must assess these according to the items below:

- a) If the reporting perimeter does not meet the requirements of Article 65, the licence must be refused.
- b) If the auditor's report has an unqualified opinion, without any modification, this provides a satisfactory basis for granting the Licence.
- c) If the auditor's report has a disclaimer of opinion or an adverse opinion, the Licence must be refused, unless a subsequent audit opinion without disclaimer of opinion or adverse opinion is provided (in relation to another set of financial statements for the same financial year that meet the minimum requirements) and the Licensor is satisfied with the subsequent audit opinion.
- d) If the auditor's report has, in respect of going concern, an emphasis of matter or a qualified 'except for' opinion, the Licence must be refused, unless either:
 - i) a subsequent audit opinion without going concern, an emphasis of matter, a key audit matters or qualification is provided, in relation to the same financial year; or
 - ii) additional documentary evidence demonstrating the Licence Applicant's ability to continue as a going concern until at least the end of the Licence Season has been

provided to, and assessed by, the Licensor to its satisfaction. The additional documentary evidence must include, but is not necessarily limited to, the information described in Article 74 (Future financial information).

e) If the auditor's report has, in respect of a matter other than going concern, an emphasis of matter or a qualified 'except for' opinion, then the Licensor must consider the implications of the modification for club licensing purposes. The Licence may be refused unless additional documentary evidence is provided and assessed to the satisfaction of the Licensor. The additional evidence that may be requested by the Licensor will be dependent on the reason for the modification to the audit report.

f) If the auditor's report makes a reference to any situation defined in Article 64 the licence must be refused.

If the Licence Applicant provides supplementary information, and / or restated financial statements, the Licensor must additionally assess the auditor's report on the agreed-upon procedures in respect of the supplementary information and/or restated financial statements. The licence may be refused if the auditor's report is not to the satisfaction of the licensor and/or includes reference to errors and/or exceptions found.

The licensor must check that the licence applicant has published the financial information in accordance with Article 67.

Assessment of licensing documentation for the net equity rule

In respect of the net equity rule, the licensor must perform the following minimum assessment procedures:

a. Determine the net equity position as at the 31 December preceding the deadline for submission of the application to the licensor based on the annual financial statements or interim financial statements;

b. Assess, if applicable, whether the subordinated loans meet the required conditions;

c. If the net equity position as at the 31 December preceding the deadline for submission of the application to the licensor is negative, assess whether it has improved by at least 10% compared with the net equity position that enabled the licence applicant to satisfy the net equity rule in the previous year;

d. If the equity rule is not fulfilled as at the 31 December preceding the deadline for submission of the application to the licensor, assess if the licence applicant has submitted by 31 March at the latest a new audited balance sheet, including any contributions made since 31 December, demonstrating that the net equity position has improved by at least 10% compared with the net equity position that enabled the licence applicant to satisfy the net equity rule in the previous year.

Assessment of licensing documentation for no overdue payables

In respect of the "no overdue payables" criteria to football clubs, employees, and social/tax authorities, the licensor may decide:

- a. to assess itself the information submitted by the licence applicant, in which case it must perform the assessment as set out in paragraph I.4.2; or
 - b. to have independent auditors carry out the assessment procedures in accordance with ISRS 4400, in which case the licensor must assess the information submitted by the licence applicant (in particular the payables tables and corresponding supporting documents) and review the auditor's report.
- The licensor may carry out any additional assessment it believes necessary, including by extending the sample or requesting additional documentary evidence from the licence applicant.

I.4.2 Notwithstanding whether the assessment is carried out by the licensor or an independent auditor in respect of the “no overdue payables” criteria to football clubs, employees and social/tax authorities, the following minimum procedures must be performed and described in the licensor's or auditor's report:

- a. Obtain the payables tables as at 31 March submitted by the licence applicant in respect of obligations due to be paid by 28 February (i.e. the transfers table, the employee table, the social/tax table and corresponding supporting documents);
- b. Perform the necessary steps (including determination of the sample size) to assess the completeness and accuracy of the reported balances and issue a conclusion with regard to each of the procedures performed;
- c. Check the completeness of any overdue balance reported by the licence applicant as at 28 February;
- d. Check the settlement of any overdue payables between 28 February and 31 March; and
- e. Identify any overdue balance as at 31 March.

I.4.3 In respect of the “no overdue payables” criterion in respect of UEFA and the licensor, the licensor must perform, as a minimum, the following assessment procedures:

- a. Review any information received from UEFA with regard to pending overdue amounts owed by the licensor's affiliated clubs and check the settlement of any overdue balance between 28 February and 31 March; and
- b. Carry out any additional assessment and request any additional documentary evidence from the licence applicant it believes necessary.

Assessment of the written representation prior to the licensing decision

In respect of the written representation, the Licensor must read and consider the impact of any Significant Change that has occurred in relation to the club licensing criteria.

The Licensor must also read and consider the information in respect of any event or condition of major economic importance, in combination with the financial statements, future financial information and any additional documentary evidence provided by the Licence Applicant.

The Licensor must assess the club's ability to continue as a going concern until at least the end of the Licence Season. The Licence must be refused if, based on the financial information that the Licensor has assessed, in the Licensor's judgement, the Licence Applicant may not be able to continue as a going concern until at least the end of the Licence Season.

If the Licence Applicant (or the registered member of the UEFA member association which has a contractual relationship with the Licence Applicant within the meaning of Article 14) or any parent company of the Licence Applicant included in the reporting perimeter is/was seeking protection or has received/is still receiving protection from its creditors pursuant to laws or regulations within the 12 months preceding the Licence Season then the Licence must be refused. For the avoidance of doubt the Licence must also be refused even if the concerned entity is no longer receiving protection from its creditors at the moment the licensing decision is taken.

Assessment of the future financial information

In respect of future financial information, the licensor must assess whether or not the licence applicant exhibits the condition as defined in Article 74. If the licence applicant is required to submit future financial information, the licensor may decide: a. to assess the information submitted by the licence applicant, in which case the licensor must perform the assessment according to paragraph I.6.2 below; or b. to have independent auditors carry out the assessment procedures in accordance with ISRS 4400, in which case the licensor must review the auditor's report to ensure they performed the assessment procedures as described in paragraph I.6.2 below.

I.6.2 The assessment of future financial information must include, as a minimum, the following procedures: a) Check whether the future financial information is arithmetically accurate;

b. Determine, through discussion with the licence applicant's management and review of the future financial information, whether the future financial information has been prepared using the disclosed assumptions and risks; c) Check that the opening balances contained within the future financial information are consistent with the balance sheet shown in the immediately preceding audited annual financial statements;

d. Check that the future financial information has been formally approved by the executive body of the licence applicant by way of a declaration by the licence applicant's management that the documents submitted are complete, accurate and in compliance with these regulations;

e. If applicable, examine corresponding supporting documents, including agreements with sponsors, banking facilities, share capital increase, bank guarantees and minutes of board meetings.

The Licensor must assess the liquidity of the Licence Applicant (i.e. the availability of cash after taking account of financial commitments) and its ability to continue as a

going concern until at least the end of the Licence Season. The Licence must be refused if, based on the financial information that the licensor has assessed, in the Licensor's judgement, the Licence Applicant may not be able to meet its financial commitments as they fall due and continue as a going concern until at least the end of the Licence Season.

Assessment of monitoring documentation for the solvency requirements

1.7.1 In respect of the monitoring documentation for the "no overdue payables" requirements (towards football clubs, employees and social/tax authorities), the licensor must perform, as a minimum, the following assessment procedures:

- a. Read the licensee's completed payables information and make enquiries to the licensee if there is any information with regard to amounts payable to other clubs, employees and social/tax authorities that may be incomplete and/or inaccurate based on the licensor's existing knowledge of the licensee from club licensing and/or other reasonable sources;
- b. Confirm that all requested supporting documents have been attached to the licensee's submission.

The licensor must confirm to the CFCB and/or the UEFA administration the results of the above assessment procedures.

Assessment of monitoring documentation for the stability requirements

In respect of the monitoring documentation for the stability requirements, the licensor must assess whether or not the financial information submitted by the licensee corresponds to the information in respect of the same reporting entity/ entities submitted for club licensing purposes.

1.8.2 In addition, the licensor's assessment must include, as a minimum, the following procedures: a. Check that the amounts in the monitoring documentation for the stability requirements and that the key balances identified by UEFA are consistent with the amounts contained in the annual financial statements and underlying accounting records; b. Check that the monitoring documentation for the stability requirements has been formally approved by the executive body of the licensee by way of a declaration by the licensee's management that the documents submitted are complete, accurate and in compliance with these regulations.

1.8.3 The licensor must confirm to the CFCB and/or UEFA administration the results of the above assessment procedures.

Assessment of monitoring documentation for the cost control requirements

In addition, the licensor's assessment must include, as a minimum, the following procedures: a. Check that the amounts in the monitoring documentation for the cost control requirements and those identified by UEFA are consistent with the amounts contained in the annual financial statements and/or interim financial statements, and/or in the supplementary information if applicable, and in the underlying accounting records; b. Check that the monitoring documentation for the cost control requirements has been formally approved by the executive body of the licensee by way of a declaration by the licensee's management that the documents submitted are complete, accurate and in compliance with these regulations.
